High School Instructor (In-person)

Course: Anatomy

Description: This biological foundations course will introduce students to internal and external structures of the human body. Students will explore how the body works in health and with disease.

Additional Information: This course is designed for students interested in health careers.

Summary of Responsibilities:

The STEP Academy at Baruch College is seeking to fill a summer instructor position for the high school program. The course will introduce high school students to an intensive science subject for a month. The goal of the course is to engage students in an exploratory science experience, not provided in a standard classroom. Instructors will prepare students to participate in the annual showcase displaying research posters, projects, or visual presentations.

Other Duties

- Prepare and teach curriculum for about 20-25 students
- Evaluate student and group performance often
- Provide staff with measurable results in student learning through assessments
- Monitor and maintain student attendance records
- Reassess curriculum based on students' needs, interests, and understanding of materials
- Plan for end of semester project

Qualifications

Required:

- Availability for each program day from 9 a.m. – 2:00 p.m.
- Degree in health sciences or related STEM
- Experience in a teaching capacity in subject area
- Experience with designing/implementing a course curriculum
- Have a strong classroom management style

Preferred:

- Strong background in the subject area
- Prior teaching experience with middle or high school students
- Ability to engage students with creative lessons and innovative teaching style
- Possess good interpersonal skills with adolescents and a strong understanding of their maturity levels
- Enthusiasm for the subject with flexibility in adjusting curriculum to reflect students' abilities

Salary

\$4,500 | \$45 x 100 hours | This includes 72 hours of instruction time + 28 hours of orientations, meetings and prep work.
