<b>Status</b>	Full Time
<b>Annual Salary</b>	\$60,000.00 - \$70,000.00
<b>Hour(s) a Week</b>	35
<b>Closing Date</b>	Mar 12, 2020 (Or Until Filled)

## General Description

---

### TTP Program Manager

Brooklyn College seeks an ambitious Program Manager to oversee the launch, implementation and assessment of the TTP Residency Program, a partnership between NYC Tech Talent Pipeline and the City University of New York. The program is designed to provide professional development opportunities to our talented computer science undergraduates and to deliver qualified tech talent to local employers. A major goal is to better align tech education with the workforce needs of NYC employers.

The Program manager will lead a team responsible for ensuring the success of a tech training and internship placement program for 25 students per internship cohort. The total number of cohorts will increase over the life of the program. The Program Manager will oversee, track and gather data about the training across all phase of the program among other responsibilities.

The ideal candidate is excited to direct the implementation of a program from start to finish and motivated by the challenge of working with a team to create new program elements. This person is an optimistic, self-directed problem solver with strong attention to detail for tracking programmatic activities and deadlines, and able to simultaneously focus on the overarching programmatic outcomes--equipping CUNY students with the technical and professional skills they need to land tech jobs.

## Other Duties

---

### Duties Include:

- Develop residency participant recruitment, assessment, and selection strategy.
- Oversee data collection and service delivery for residency participants.

- Assess applicants' Computer Science and coding knowledge, as well as professional skills
- Work with employer partners to develop internship descriptions and plans.
- Hold technical conversations with engineers at participating employers.
- Administer the internship matching process with the hiring companies
- Regularly report on program progress and outcomes to TTP
- Oversee program logistics such as pre-internship training (including attendance), site visits, and graduation events.
- Work to integrate TTP residency into the college's infrastructure including gaining buy-in from faculty and bringing employers to campus to promote post-education opportunities.
- Conduct a program review and assessment of the recruitment, assessment, and selection strategy for continuous improvement for subsequent cohorts.
- Meeting with students on a regular basis to make sure they are on track to meet the goals and requirements of the program
- Drive all student engagement activities across the current and the previous cohorts. This also includes all student-focused communications such as newsletters, job postings, program updates via email and other activities.
- Serve as the primary point of contact and resource for Participants throughout the internship.
- Maintain regular records of program inputs, outputs, and outcomes that can be easily shared with TTP using the templates provided during weekly progress meetings.
- Plan opportunities for Participants to network and to showcase their technical projects upon completion of the Program to employer representatives, the College community, and the greater NYC tech sector;
- Work with the Career Coach to support Participants' job searches and connection to employment
- Sustain relationships with NYC-based employers and support sourcing of technical internship opportunities

## Qualifications

---

### Qualifications:

Bachelor's Degree/Master's Degree Preferred

### Required Competencies:

- 2-4 years of experience working in program management
- Technical knowledge, including a working knowledge of at least one coding language, preferably JavaScript
