General Description

Borough of Manhattan Community College (BMCC) Center for Continuing Education is looking for professional JAVA instructors who have a knack for delivering top-notch training. The candidate will be responsible for providing quality instruction to students by ensuring student satisfaction through the classroom or laboratory setting according to the program objectives. They must have a strong knowledge of Java, Java Web, Web Services and spring framework programming environments.

This is a great opportunity for candidates with a strong Java Programming background and education delivery to work in a rapidly growing, fast paced environment. If you thrive in a fast-paced environment where you have the opportunity to deliver high-quality, professional training courses, BMCC Continuing Education is looking for you.

BMCC's Continuing Education provides educational opportunities, including high demand certifications, for the ones aspiring to become Information Technology professionals. Our programs are designed to prepare students for direct entry into the job market and provide hands-on instruction. It is our goal to specialize in those areas for which the job growth potential is highest. Our hallmark is personalized, practical, real-world instruction that best prepares the student for their future while meeting the needs of employers.
