
Job Title	Research Technician
PVN ID	CC-1905-003101
Category	Research
Location	The CITY COLLEGE of NEW YORK
Department	Biology
Status	Full Time
Annual Salary	\$36,000.00 - \$38,000.00
Hour(s) a Week	35
Closing Date	Jul 23, 2019 (Or Until Filled)

General Description

An NIH-funded research technician position is available in the Vuong laboratory at The City College of New York. The lab examines the molecular mechanisms regulating immunoglobulin gene diversification using techniques in molecular biology, immunology, biochemistry, and genetics.

Other Duties

Responsibilities of the Research Technician include, but are not limited to: conducting an independent research project; assisting in molecular biology and immunology experiments; participating in lab meetings and journal clubs; attending national or international conferences; maintaining and genotyping mouse colony; and managing laboratory operations, such as ordering supplies and maintaining reagents and equipment.

Qualifications

The ideal candidate will have excellent oral and written communication skills and will be able to work independently and in a team environment. A minimum 2 year commitment and BA/BS in Biology, Chemistry, or a related field is required. Candidates with experience using genetically engineered animal models and laboratory skills in molecular biology, immunology, biochemistry, or genetics are preferred.

Interested applicants should include a cover letter, list of references, and resume.
