

Job Title	Research Technician
PVN ID	CC-2001-003497
Category	Research
Location	The CITY COLLEGE of NEW YORK
Department	Biology
Status	Full Time
Annual Salary	\$35,000.00
Hour(s) a Week	35
Closing Date	Mar 28, 2020 (Or Until Filled)

General Description

A research technician position is available at a Cellular and Molecular Biology laboratory at The City College of New York, a senior college of The City University of New York. The laboratory research focuses on molecular pathways and mechanisms regulating mammalian hematopoietic (blood cell) development in normal and oncogenic situations. The work requires manipulation of mouse and human cells and animals (mice) as well as use of standard molecular biology techniques. Practical laboratory experience in standard molecular biology techniques such as recombinant DNA technology, PCR, gel electrophoresis Western blotting and basic cell culture is required and knowledge of more advanced methodologies such as flow cytometry, immunohistochemistry and mouse husbandry (including genotyping, tissue harvesting etc.) are strongly preferred. The candidate may initially work under the supervision of the PI or senior personnel and is then expected to transition to working independently on laboratory projects. The position also entails limited laboratory maintenance responsibilities. He/she is expected to maintain a project notebook and will have opportunities to contribute as an author on scientific publications.

Other Duties

Qualifications

A B.S. with a major in Biology, Biochemistry or a related field is required and an M.S is preferred. Additional relevant laboratory experience of ~2 years is required. The application should include a cover letter, resume and the names and contact information of 2 referees. A minimum commitment to the position for 2 years is required. Please apply ONLY if you fulfill the above criteria and possess the necessary qualifications and work experience.
