## General Description

---

A research technician position is available in the Vuong laboratory at The City College of New York ([www.bqvlab.org](http://www.bqvlab.org)).

Responsibilities of the Research Technician include, but are not limited to: conducting an independent research project; assisting in molecular biology and immunology experiments; participating in lab meetings and journal clubs; attending national or international conferences; maintaining and genotyping mouse colony; and managing laboratory operations, such as ordering supplies and maintaining reagents and equipment.

## Other Duties

---

## Qualifications

---

The ideal candidate will have excellent oral and written communication skills and will be able to work independently and in a team environment. BA/BS in Biology, Chemistry, or a related field is required. Candidates with experience using genetically engineered mouse models and laboratory skills in molecular biology, immunology, biochemistry, or genetics are preferred.
