

Job Title	Laboratory Technician / Manager
PVN ID	HC-1809-002725
Category	Research
Location	HUNTER COLLEGE
Department	Biological Sciences
Status	Full Time
Salary	Depends on qualifications
Hour(s) a Week	35
Closing Date	Sep 28, 2018 (Or Until Filled)

General Description

Laboratory Technician / Manager in a Translational Cancer Biology Laboratory

A laboratory technician or manager is sought to work in a translational cancer biology laboratory at Hunter College. The selected candidate will work to provide organizational, administrative, and technical support to multiple projects, all focused on elucidating the molecular mechanisms of cancer progression.

We seek a highly motivated candidate with at least a BA/BS in a life science. The candidate must have demonstrated ability to provide organizational, administrative, and technical support to multiple cancer molecular biology projects.

Under the administrative supervision of the Principal Investigator, the candidate exercises substantial independent professional judgment in overseeing technical and laboratory matters of varying complexity. The individual will procure equipment appropriate to the project, within budget and within all RF guidelines; investigates state-of-the-art upgrades or replacements and proposes appropriate fabrications, repairs and replacements. The person hired will supervise students in the daily technical set-up of laboratory equipment or of other equipment used in the laboratory. The laboratory technician / manager manages the technical budget within delegated authority and reports routinely to the Principal Investigator on all budget issues.

Other Duties

The laboratory manager will also have the opportunity to develop new organizational, administrative, and technical skills related to translational cancer biology.

Qualifications

Applicants should have:

- BA/BS in Biology, Biochemistry or related field.
- Experience in Cell and Molecular Biology.

The position requires an organized, and motivated individual who is enthusiastic about working in Cancer Biology.

The lab technician/manager should be interested in developing scientific writing and verbal communication skills.

Interested candidates should submit the following:

- (i) A cover letter
- (ii) A curriculum vitae
- (iii) A list of three references including names, email addresses, and telephone numbers

Candidates from groups underrepresented in the sciences are especially encouraged to apply.

The position will be initially for one year, renewable up to five years based on performance. Start date for the position is immediately. Position will remain open until filled.
