

Job Title	Research Assistant
PVN ID	HC-1902-002973
Category	Research
Location	HUNTER COLLEGE
Department	
Status	Full Time
Salary	Depends on qualifications
Hour(s) a Week	35
Closing Date	Apr 28, 2019 (Or Until Filled)

General Description

Lim Lab at Hunter College is seeking Research Assistant. The laboratory studies cortical gene expression, activity-dependent myelination, and neurodegeneration using intravital optical microscopy. The successful applicant will maintain mouse colonies, carry out genotyping and stereotaxic injection. Experience in molecular cloning is a plus.

Other Duties

- Manage small mouse colony, including breeding and genotyping
- Perform mouse surgery, including stereotaxic injection and pre-/post-surgical care
- Assist in intravital imaging experiments

Qualifications

- BA. in biology, bioengineering or equivalent
- Mouse handling experience
