General Description

I am an Assistant Professor in the Department of Political Science at Queens College looking for a Research Aide for a short-term position for June/July; up to $20 an hour for no more than 10 hours a week until needed.

The work primarily involves geocoding voter file data and merging with other data to add variables; cleaning the data; create panel data.

Other Duties

Qualifications

Required skills:

-Must have experience geocoding voter file data

-Must have experience with advanced regression, panel methods (fixed, random effects);

-Familiarity with American politics, voting behavior, elections

- Analyze data in R or Stata;

-Create graphs in R

-Merge datasets to create panel data of large datasets (millions of observations)

If interested please submit your CV/Resume and a brief description of relevant experience. If you have any questions, please email vanessa.perez@qc.cuny.edu.
