

<b>Job Title</b>	Research Associate/Technician
<b>PVN ID</b>	RC-1806-002531
<b>Category</b>	Research
<b>Location</b>	CUNY-ADVANCED SCIENCE RESEARCH CENTER
<b>Department</b>	Structural Biology/Biophysics/Biochemist
<b>Status</b>	Full Time
<b>Salary</b>	Depends on qualifications
<b>Hour(s) a Week</b>	35
<b>Closing Date</b>	Jan 03, 2020 (Or Until Filled)

## General Description

---

Research associate/technician positions are currently available in the Elbaum-Garfinkle lab at the Advanced Science Research Center (ASRC) at the Graduate Center, CUNY.

The Elbaum-Garfinkle lab is an interdisciplinary team of scientists studying disordered proteins at the nexus of liquid phase separation and pathological aggregation. Using single-molecule fluorescence tools, material science methodology, and *C. elegans* genetics, our group probes the mechanism and regulation of protein self-assembly on the molecular, material and organismal levels.

Highly motivated applicants with a background in molecular biology, protein purification, or *C. elegans* are particularly encouraged to apply. Masters strongly preferred.

## Other Duties

---

## Qualifications

---

Applicants should upload a CV and Cover Letter briefly summarizing previous expertise and current/future interests
