General Description

Lead Teaching Assistant, Web Development Bootcamp

<u>Objective</u>: The Tech Talent Pipeline Residency Program, a software internship placement program at the College of Staten Island, is seeking a Lead Teaching Assistant for a 10-week full stack coding bootcamp. This bootcamp will be delivered by the instructor virtually with the teaching assistants and students in person in a HyFlex classroom.

The bootcamp team is comprised of one (1) Instructor, five (5) Teaching Assistants, and one (1) Lead Teaching Assistant. All team members must have high-level of JavaScript and classroom experience. Team members will support approximately 40 CUNY computer science majors, lead project work, facilitate tutorials and project completion.

<u>Reports To</u>: Program Manager, TTP Residency at the College of Staten Island

<u>Timeline</u>: Anticipated timeframe June 5 – August 25, 2023.
Approx. 424 total programmatic hours.
Weekly work schedule is 35 hours per week.

<u>Salary Range:</u> $30/hour

ABOUT THE TECH TALENT PIPELINE: The NYC Tech Talent Pipeline (TTP), is the City of New York's tech industry partnership, launched in 2014 by Mayor Bill de Blasio to support the inclusive growth of the NYC tech sector and prepare New Yorkers for 21st century jobs. The NYC Tech Talent Pipeline works with 385+ companies, 17 local colleges, and additional public and private partners to define employer needs, develop training and education models to meet these needs, and scale solutions throughout the city, delivering quality talent for the city's businesses and quality jobs for New Yorkers.

Other Duties

RESPONSIBILITIES

- Assist and support the lead instructor during live web development instruction
- Teach sections of the course if the lead instructor is absent
- Help the lead instructor with assigning and managing daily learning breakout groups
- Understand student group and individual needs and assign tutors accordingly
- Manage and answer daily help tickets during learning sessions and project sessions
- Track student academic performance and engage with students to help them successfully complete their training
- Work with the TAs to assign additional tutoring or modify the support hours to meet students' needs
- Support students with building group projects in class and completing individual projects
- Review and grade the assignments submitted by the students, including pre/post assessments & capstone projects
- Assist the lead instructor with curriculum updates and designing assignments

Qualifications

REQUIRED SKILLS

- Mastery of full stack web development (React, Node/Express), PostgreSQL, Sequelize, and mobile technologies
- Mastery of Git and industry GitHub workflows
- Experience teaching or learning in a hybrid environment

PREFERRED

- Familiarity with security, and AWS
- Prior experience working as a teaching assistant in CUNY or a Bootcamp

NOTE: Only those candidates under consideration will be contacted.
