Department	Dept. of Design and Construction
Status	Full Time
Salary	Depends on qualifications
Hour(s) a Week	35
Closing Date	Nov 18, 2022 (Or Until Filled)

General Description

GENERAL DESCRIPTION

CUNY is embarked on multi-billion dollar and multi-year capital design and construction program at its 25 campuses. The Assistant Directors, as members of the management team in the Office of Facilities Planning, Construction, and Management (FPCM), play a vital role in the successful implementation of this program. The Assistant Director (AD) has primary responsibility for the development and implementation of capially funded construction projects including the design and construction of new buildings, renovation projects, infrastructure projects, energy performance projects, repair projects, and capital maintenance projects at CUNY campuses.

Exercising independent initiative and judgment and working under the general direction of the Executive Director, the AD has wide latitude in the implementation of their assigned capital program. The AD works collaboratively with numerous stakeholders including college, university, governmental and regulatory agency representatives, as well as consultant and construction teams, to successfully manage the projects to provide quality facilities, on time and on budget, that serve CUNY students, faculty, and staff.

Salary commensurate with experience and qualifications.

Posting open until until filled.

Other Duties

DUTIES AND RESPONSIBILITIES

1. Be in control for all projects under your responsibility and lead and drive completion on time and on budget.
2. Lead your team to meet the productivity targets and completion rates of the annual construction program.

3. Identify and manage project dependencies and critical path.
4. Develop conceptual plans and budgets for facilities projects to support the fiscal decision-making process.
5. Develop best practices for project execution and management.
6. Develop and maintain project budgets.
7. Draft and submit budget proposals and recommend subsequent budget changes.
8. Plan, organize, manage, and participate in selection process of architectural/engineering consultants, CMs, and contractors.
9. Participate in consideration of and recommend consultant fees.
10. Plan, assign and review the work of subordinates. Supervise project managers and other staff.
11. Prepare cost estimates and schedules for all capital projects such as new construction, rehabilitation, infrastructure, energy performance, remodeling, mechanical/electrical/plumbing, fire protection, or repair projects.
12. Ensure and supervise preparation of construction documents and compliance to project program and budget for all projects. Oversee the work of consultants, CMs, and the contractors.
13. Work with the project managers to assemble bid documents and ensure an adequate bidding process.
14. Schedule project scope development, design, bidding timing to coincide with Board meetings.
15. Prepare Project Board Resolutions for Board approvals.
16. Review bid submissions, analyze the bids, and provide timely recommendations.
17. Ensure all City and State project authorizations and budget approvals are in place prior to bidding of the projects.
18. Ensure project managers are frequently updating the CUNY Project Management System on the status of the projects in relation to financial information, project schedule, progress report.
19. Ensure that all required information including State and City budget authorizations, bid results, total project cost, design and construction schedules, the low bidder qualification result, and project financial risk analysis are available prior to seeking approvals from CUNY and CUCF Board of Trustees.
20. Direct and supervise project managers and staff to ensure proper working relationships and interface with City and State agencies and departments responsible for accomplishing a successful project.
21. Establish and direct all activities required for project completion and assign them to the project managers.

22. Alert the Executive Director or other appropriate executive to critical situations and recommend solutions. Exercise proper judgment as required.
23. Prepare regular project management reports. Keep Executive Director informed on the progress, status, and appropriate details of all projects.
24. Responsible for turnkey delivery of all CUNY-managed design and construction projects from inception through completion. This includes conventional and CM at risk projects.
25. Responsible for handling planning, budgeting, and making key decisions to ensure that construction projects are in conformity with the proposed budget and are completed on time.
26. Attend and proactively participate in construction meetings to communicate with project managers, project management team, campus facility staff, and other parties involved in the construction project to discuss budgets, plans, and goals.
27. Manage changes in project scope, identify potential crises, and devise contingency plans.
28. Negotiate contracts, which involves negotiating contracts with vendors and other professionals, and renegotiating contracts with contractors and subcontractors when changes occur.
29. Review, negotiate, and approve change orders with the CM and contractors and ensure fair value for the university.
30. Review and approves payment certificates to contractors and consultants.
31. Develop comprehensive understanding of project strategy and commitments including financial goals, scheduling, logistics, phasing, milestones, and inspections.
32. Ensure assigned jobsite operations are following design/specifications and lead and drive completion on schedule, within budget and to quality standards.
33. Demonstrate and maintain effective and open dialogue with the project team regarding changes in work, job conditions, contractor relations and any deviation in the direction of the project.
34. Monitor and facilitate the resolution of construction contract disputes and claims.
35. Assist colleges in identifying capital construction and facilities needs to meet their academic mission. Interface with senior college administration throughout all phases of project development.
