

EARLY AWARD TERMINATION

A sponsored research award may terminate prior to its original end date due to the following:

- Sponsor requested the termination.
- Funding source is exhausted or funding is reduced.
- Principal Investigator(PI) and/or its institutions not in compliance with the rules and regulations enforced by the sponsor leading to a Stop Work Order or Notice of Suspension.
- PI departs or transfers to another institution without assignment of a new PI.

The terms and conditions of an award will typically include a clause to detail instructions regarding early termination. These notices are sent directly to RFCUNY by the sponsor.
